About Nathan A. Stuck

Nathan is an award winning speaker whose journey provides a colorful background to every talk—he's dispatched chicken trucks, rented cars, played poker, done C-suite sales, and even driven an Uber while waiting for grad school to start.

But his stories define his story and why he's become such an **outspoken advocate** for businesses using their platform as a force for good. For the past eight years, Nathan has immersed himself into his role and developed his own playbook for building an amazing culture, being intentional about your impact, and aligning your business around these principles.

A proud Athenian, Nathan is a champion for the small town, the underdog, and the overlooked.
